

WAQAS AHMAD SHAH

Web Developer | PHP & MySQL Developer

Charsadda, Pakistan | 0320-9955837 / 0315-9937342 | waqasahmad545818@gmail.com | linkedin.com/in/waqasahmad-shah

PROFESSIONAL SUMMARY

Web developer with hands-on experience building full-stack applications using PHP, MySQL, and JavaScript, alongside frontend work in HTML5, CSS3, and Bootstrap. Delivered self-driven production projects including a role-based factory management system with automated reporting and an online examination platform, in addition to contributing to client work as part of the Encoderbyte program. Currently expanding into Laravel through recent certification, with a strong foundation in relational database design and secure, transactional application logic.

TECHNICAL SKILLS

Languages & Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Design

Backend: PHP 8, MySQLi (Prepared Statements), RESTful Concepts, Role-Based Access Control

Databases: MySQL, Relational Schema Design, Transactional Writes

Currently Learning: Laravel, Git & GitHub

Tools: Chart.js, Vercel (Deployment), InfinityFree Hosting

PROJECTS

MarbleFlow Factory Manager — marblefactory.infinityfree.me

- Built an end-to-end PHP/MySQL web application for managing a marble processing factory — covering raw block purchases, production and wastage tracking, sales invoicing, customer receipts, and supplier payments.
- Implemented automatic stock and account balance synchronization, a Chart.js dashboard flagging low-stock products, and nine printable reports including ledgers and profit estimates.
- Engineered with PHP 8 and MySQLi prepared statements, role-based access control, transactional writes, and reversible cancellations in place of hard deletes.

Online Examination System — oems.infinityfreeapp.com

- Developed a controlled online examination platform allowing students to attempt exams, teachers to evaluate answer sheets, and results to be generated automatically.
- Built with PHP and MySQL on the backend and HTML, CSS, Bootstrap, and JavaScript on the frontend.

Personal Portfolio — waqasahmadshah.vercel.app

- Designed and built a modern personal portfolio site using HTML, CSS, JavaScript, and TypeJS.

Bizcell Website Clone — apnabizcellclone.vercel.app

- Recreated the Bizcell website as a training exercise, focusing on layout accuracy and responsive implementation.

EDUCATION

BS Computer Science — University of Peshawar, Peshawar | 2021 – 2025 | CGPA: 3.72 / 4

Intermediate (Pre-Computer Science) — GOVT Degree College Shabqadar Charsadda | 2019 – 2021 | Score: 70 %

Matric (Science) — Adil Educare Model School Shabqadar Fort Charsadda | 2017 – 2019 | Score: 69%

CERTIFICATIONS

Advanced Web Application Development — National Vocational & Technical Training Commission (NAVTTTC) | Dec 2025

Web Development — Arfa Karim Incubator, Peshawar | Feb 2025
